ilektro™

nine fifty aspect electric fire

Warm up your home in every way with the ilektro 950 Aspect.

After all, a fireplace shouldn't just make your home look more inviting – it should make you feel more relaxed and warm on the inside and outside.

Designed with you in mind you can personalise your ilektro fireplace to create the perfect ambiance by controlling both the visuals and the temperature.

Having a fireplace has never been easier.

HIGH DEFINITION

Contoured realistic flame technology with a custom designed hand crafted log bed.

OPTIMAL CONTROL

Your flame is able to be controlled and customised by you along with the log fuel bed, You can also control the colour and brightness of the downlight as preferred by you.

SOUND EFFECT

With audio volume control, you can set the crackling of your fire to create your authentic fireplace.

REMOTE HANDSET

With your infrared remote, control your fire settings from the comfort of your sofa.

APP CONTROL

Convenient App control available and compatible for most smart phones and tablets.

THERMOSTAT

Ultra quiet fan heater with a seven day programmer thermostatically controlled. (1-2kW)

OPTIONAL EXTRAS

Anti reflective glass and scene lighting LED kit available upon request.

WARRANTY

2 year warranty for added assurance.
